

Hi Coach {Add Coaches Name}

This is {Add your name and graduation year} from Downtown Las Vegas soccer club, {add your team name and year} team (Las Vegas, NV.) I just wanted to say thank you for a great soccer camp at your university. Thank you for your feedback as I really take my playing very seriously. I will really be focusing on getting more intense and aggressive. I was really impressed with the university and your soccer program. I would like to continue to update you on my schedule in case you were planning on going to a tournament that I participate in. {write something about your abilities} I believe my technical ability and mental toughness would be a great addition to any team. I play in a smart way, never putting my team in a bad position and I am very comfortable on the ball.

My goal remains to continue to be on your radar as a {Graduation year} recruit. I am looking for a top-notch institution with a great {area of study} engineering program and {put university name here} certainly meets that criteria. As a {current grade level} senior I currently maintain a {Your GPA} GPA and have taken my SAT and ACT tests.

Thanks for all your time and I hope you continue to monitor me and watch me play.

Respectfully,

{Your Name and graduation year}  
Downtown Las Vegas Soccer Club {Team Name}
